

Memorandum

Date: October 6, 2015

To: Honorable Chairman Jean Monestime
and Members, Board of County Commissioners

Agenda Item No. 8(F)(13)

From: Carlos A. Gimenez
Mayor

Subject: Request for Additional Expenditure Authority to Contract No. L9382-1/19, Proliance Software License, Maintenance, and Support Services

Recommendation

It is recommended that the Board of County Commissioners (Board) approve this request by the Miami-Dade Water and Sewer Department for \$410,000 in increased spending authority under legacy *Contract L9382-1/19, Proliance Software License, Maintenance, and Support Services* to purchase additional software licenses and associated maintenance and support services for the Proliance software suite. The Water and Sewer Department competitively procured the Proliance System in 2007 and implemented the Proliance software suite in 2008. The Proliance System is used throughout the Water and Sewer Department as a project management tool that maintains a shared, central repository of major capital initiatives, tracking project status, and managing a comprehensive document database. More specifically, the department uses Proliance to address several objectives within its business plan including, but not limited to, continued water and wastewater capital plan implementation, and improved accountability.

In September 2014, the Board, through Resolution No. R-752-14, approved a legacy contract award to Meridian Project Systems, Inc., solely for ongoing software maintenance and support services for the Proliance System. At that time, the Water and Sewer Department did not anticipate the need to purchase additional licenses. However, the department now plans on using the Proliance suite to assist it in managing Consent Decree projects. This requires the expansion of the existing system, including acquiring user licenses, increasing maintenance services, and enhancing oversight functionalities.

Approval of this \$410,000 request will ensure the purchase of additional software licenses, maintenance, and technical support services for the remainder of the three-year term. The requested sum reflects \$78,514 in negotiated savings for the needed software licenses and maintenance support services. Meridian Project Systems, Inc., is the proprietary owner and developer of the Proliance System and is the sole provider of the required software licenses, maintenance, and technical support services.

Scope

The impact of this item is countywide in nature.

Fiscal Impact/Funding Source

The contract is currently in its initial three-year term, which expires on September 30, 2017, and has an existing allocation of \$625,000. The requested \$410,000 increase in allocation to the initial three-year term is based on estimated needs (i.e., the purchase of 343 additional software licenses as well as software maintenance and technical support services). If this modification is approved, the initial three-year term will have a total modified allocation of \$1,035,000.

Department	Existing Allocation	Additional Allocation Requested	Modified Allocation	Funding Source	Contract Manager
Water and Sewer	\$625,000	\$410,000	\$1,035,000	Proprietary Funds	Gregory Govia
Total:	\$625,000	\$410,000	\$1,035,000		

Track Record/Monitor

Mike Ramos of the Internal Services Department is the Procurement Contracting Officer.

Delegated Authority

The County Mayor or County Mayor's designee will have the authority to exercise all provisions of the contract pursuant to Section 2-8.1 of the County Code and Implementing Order 3-38.
